

**2009 Residential Rebates and Incentives for Energy Efficiency and Renewable Energy**

MEASURE	XCEL GAS CUSTOMERS	XCEL ELECTRIC CUSTOMERS	OTHER REBATES & INCENTIVES
Air Sealing/Reduce infiltration	20%, up to \$300*	20%, up to \$300* ~	
Attic Insulation	20%, up to \$300	20%, up to \$300*~	Fed tax credit: 30%, up to \$1500**
Wall Insulation	20%, up to \$300*	20%, up to \$300*~	Fed tax credit: 30%, up to \$1500**
High Efficiency Furnace	AFUE 92% = \$80, AFUE 94% = \$120		Fed tax credit: 30%, up to \$1500**
Boiler	\$120 for AFUE >= 84%		Fed tax credit: 30%, up to \$1500**
Ground Source Heat Pump			Fed tax credit: 30%. Must meet ENERGY STAR criteria.
Air Source Heat Pump	Up to \$500		Fed tax credit: 30%, up to \$1500**
Central Air Conditioner (AC)		Up to \$500	Fed tax credit: 30%, up to \$1500**
Programmable Thermostats	\$25, with furnace upgrade		
Water Heater: On Demand /Tankless	\$40-\$100		Fed tax credit: 30%, up to \$1500**
Measure	XCEL GAS CUSTOMERS	XCEL ELECTRIC CUSTOMERS	Other Rebates & Incentives
Water Heater: Gas, Oil, Propane			Fed tax credit: 30%, up to \$1500**. Energy Factor >= 0.82 or thermal efficiency of at least 90%
High Efficiency Natural Gas Storage	\$80 for 92% AFUE		Fed tax credit: 30%, up to \$1500**
Tubular Skylights			Fed tax credit: 30%, up to \$1500**
Roofing: Metal or Asphalt			Fed tax credit: 30%, up to \$1500**. All ENERGY STAR qualified metal and reflective asphalt shingles
Solar photovoltaic		\$3.50/watt	Fed. Tax credit 30% of cost
Solar Hot Water Rooftop	----		Fed tax credit: 30% of cost
Small Wind	----		Fed tax credit: 30% of cost. Capacity no more than 100 kw.

\*Rebates are capped at a combined \$300 per customer per natural gas meter.

\*\*Federal tax credits are capped at a combined \$1500 per homeowner. Energy efficiency measures must be installed in 2009-2010.
